Section : Part I General English

Comprehension:

Refer to the below passage and answer the questions.

A thing of beauty is a joy forever Its loveliness increases, it will never Pass into nothingness; but will keep A bower quiet for us, and a sleep Full of sweet dreams, and health, and quiet breathing. Therefore, on every morrow, are we wreathing A flowery band to bind us to the earth, Spite of despondence, of the inhuman dearth Of noble natures, of the gloomy days, Of all the unhealthy and o'er-darkened ways Made for our searching: yes, in spite of all, Some shape of beauty moves away the pall From our dark spirits. Such the sun, the moon, Trees old, and young, sprouting a shady boon For simple sheep; and such are daffodils With the green world they live in; and clear rills That for themselves a cooling covert make 'Gainst the hot season; the mid forest brake, Rich with a sprinkling of fair musk-rose blooms; And such too is the grandeur of the dooms We have imagined for the mighty dead; All lovely tales that we have heard or read; An endless fountain of immortal drink, Pouring unto us from the heaven's brink.

SubQuestion No : 1

Q.1 Select the most appropriate meaning of the given word below.
Dearth

- Ans ☒ 1. an amount or supply that is not large enough
- ☐ 2. the level of a particular element in the outer layer of the earth
- ☐ 3. the fact that there is abundance of something
- ☐ 4. the group of people at a particular level in an organization

Comprehension:

Refer to the below passage and answer the questions.

In a developing country, an increased use of motor vehicles is often seen as a sign of prosperity and progress. Consumers and businesses enjoy the convenience and mobility that cars provide, and this demand has led to the growth of the automobile industry. However, this growth also comes with its share of problems.

One of the most visible effects of increased vehicle use is traffic congestion. Without proper infrastructure, such as more roads and traffic controls, traffic jams can cause wasted time and decreased productivity. This can also lead to frustration and stress for drivers and commuters. Governments must take measures to improve transport systems, such as light rail systems, to alleviate the strain on the roads.

Another problem associated with increased vehicle use is air pollution. Fumes and waste products from cars can cause smog and decrease oxygen levels in the atmosphere, leading to health issues for citizens. Despite these issues, there are benefits to increased vehicle use. Governments benefit from revenue generated from taxes on motor vehicles, and the automobile industry can be a vital engine of growth for foreign countries that export vehicles. However, it is important to consider the impact that increased traffic can have on a city's attractiveness to tourists and businesses.

In conclusion, while increased use of motor vehicles can bring convenience and prosperity, it also comes with attendant problems such as traffic congestion and air pollution. It is important for governments to balance the benefits and drawbacks and implement measures to promote sustainable growth.

SubQuestion No : 5

Q.5 Select the most appropriate meaning of the given word below.
Alleviate

- Ans** ☒ 1. causing very great pain, difficulty, worry
- ☒ 2. to make something bad such as pain or problems less severe
- ☒ 3. physical or mental pain that a person or animal is feeling
- ☒ 4. a feeling of physical suffering caused by injury or illness

Q.9 Read the below passage:

A wonderful fact to reflect upon, that every human creature is constituted to be that profound secret and mystery to every other. A solemn consideration, when I enter a great city by night, that every one of those darkly clustered houses encloses its own secret; that every room in every one of them encloses its own secret; that every beating heart in the hundreds of thousands of breasts there, is, in some of its imaginings, a secret to the heart nearest it!

Which one of the following is the CORRECT logical inference based on the information in the above passage?

- I) Each person does not have a different imagination than the others.
- II) Every person has a dependent existence no matter how close he gets to others.
- III) Even the people who are very close keep secrets from each other.

Ans ☒ 1. I, II, and III only

☒ 2. III only

☒ 3. II only

☒ 4. I only

Q.10 Read the below passage:

The difference in the ways of thinking and perception in the people of two different generations, which results in behavioural differences and sometimes, conflict among them is usually called generation gap. Generation gap is generally seen in the family between parents and their children. It is not only because of the gap in age but also because of the way parents react to a particular situation. Children, being very young and immature, do not understand the way of thinking of their parents. In many cases, the parents, even if they are matured, do not emphasize with the changing values and thinking pattern of the modern world. This creates a communication gap between the two generations.

Which one of the following is the CORRECT logical inference based on the information in the above passage?

- I) Generation gap is a result of the difference in the ways of thinking and perception of two different generations.
- II) Parents have a different way of thinking which is often not understood by their young children.
- III) The difference of opinions and thinking between generations is not only because of the age but due to different ways of reaction as well.

Ans ☒ 1. II & III only

☒ 2. II only

☒ 3. I, II, & III only

☒ 4. I & II only

Chosen Option : 1

Comprehension:

Read the following passage and answer the questions given below.

While bats do have eyes, their eyesight is not their primary sense when it comes to navigating and hunting in the dark. In fact, many species of bats have relatively poor eyesight compared to other mammals, including humans. Bats typically have small eyes and are often active at night, which means they have less need for acute vision.

Additionally, the way bats perceive and interpret their surroundings is quite different from how humans do. Bats rely on a process called echolocation to navigate and find food in the dark. Echolocation is similar to how dolphins and some species of whales use sonar to "see" underwater.

SubQuestion No : 16

Q.16 Which of the following statements can be inferred from the passage?

- Ans ☒ 1. Both bats and human beings are mammals.
- ☐ 2. Not all bats are active at night.
- ☐ 3. Eyesight of all the bats is perfect.
- ☐ 4. Bats behaviour is similar to human beings.

Comprehension:

Read the following passage and answer the questions given below.

While bats do have eyes, their eyesight is not their primary sense when it comes to navigating and hunting in the dark. In fact, many species of bats have relatively poor eyesight compared to other mammals, including humans. Bats typically have small eyes and are often active at night, which means they have less need for acute vision.

Additionally, the way bats perceive and interpret their surroundings is quite different from how humans do. Bats rely on a process called echolocation to navigate and find food in the dark. Echolocation is similar to how dolphins and some species of whales use sonar to "see" underwater.

SubQuestion No : 17

Q.17 Which of the following words means the same as the word 'perceive' used in the passage?

- Ans ☒ 1. Anticipate
- ☐ 2. Disregard
- ☐ 3. Misread
- ☐ 4. Overpass
